

MASS CLEANER MANUAL

BEGINNING

Are you depressed? Are you fed up with life? Do you hate humanity? Good. This handbook will teach you how to spew your hate instead of being a lol-playing faggot.

Humanity hasn't been able to do anything in recent years other than gain weight, become lazy, and become slaves to Jewish companies. Degeneration is at its peak, family values have disappeared, and we are heading towards a shithole.

I was usually ostracized as a quiet person, why? Because I didn't want to communicate with these insect swarms. Humans are inherently evil beings, the most evil of them all Jewish 's. I divide these insects into 3 classes.

Ants, "Pathetic beings": They are like a normal NPC, they work as slaves for a Jewish company until they are in their 40s and 50s. When they get old, they rot in their soft beds, they are generally brainless.

Snails, "Brainless beings": Usually under 18, usually over 18 with a job. Have stupid behavior (like k*rts and niggers). Listen to stupid nigger rap. Have little thinking ability.

Cockroaches, "Brain-dead beings": Regardless of age, they are born without a brain. Their stupid actions are at the highest level, their thinking ability is zero. In their spare time, they enter TikTok on their phone, completely destroying their non-existent brain. Despite not having a brain, they are stubborn in everything, and this situation gets worse as they get older. It is one of the insects that must be destroyed first.

We are just these kinds of insects in this world, but YOU can change that. Read this book, get informed and then you can cleanse the world of these insects! Which is not hard at all :)

TIPS

1. Don't tell anyone about your plans, not even your closest friend. Completely isolate yourself from human contact during this time.
2. Read other cleaners' manifestos. (You can find them in the files)
3. Prepare yourself mentally for action 6-8 months in advance, do exercises and workouts.
4. Don't forget to spread this PDF before you attack :)
5. Start killing from your first family, 2-3 easy kills depending on the number.
6. You can run over people with your car while escaping the scene.
7. If you have a gun, spend your bullets wisely, and always save one for yourself.
8. Listen to black metal when attacked.
9. If you get arrested, grin like a trollface for the cameras. The bug NPCs will be annoyed that you can't even smile once in your shitty life.
10. Subscribe to Zade.

Whatever kind of attack you are planning, do not plan it in 1-2 days, take into account every possibility and make a plan accordingly. Be realistic and know your limits.

If you pull off a good attack, journalists and reporters who have their wives screwed by niggers will have a ton of nice things to say about you.

I recommend that you write a manifesto or write a note declaring that there is no terrorist organization behind you. Media organizations love to distort everything.

WHO AM I?

I am a man born in 2006 in Eskişehir, to a middle-class family. I have never had good relations with my family, I have usually been closer to my grandfather and grandmother. My hatred for humanity started towards the end of middle school, and when I finished middle school I fell into a deep depression. Life was not worth living, it did not make sense to be a slave to this shitty system. But when this depression was supplemented with hatred for humanity, I finally found my purpose in life... To wipe out as many bugs as I could from the world, including myself.

This hatred has continued until today, you will most likely find me either in the news or in my city's news pages. Since this is the first attack(?) with this motivation, I think I will most likely be in the news. Politically I am a National Socialist, but that doesn't seem possible in this Jewish controlled fucking system and society.

MY PLAN

I take a cold shower and put on my clothes. I take my equipment and go to the attack area either by car or by public transport. I put on my equipment in a suitable place and attach my axe and knife to my vest. Then I attack everyone in front of me. I spray pepper spray on those who try to resist.

In my old plan, I aimed to attack the TKP building, but I had to carry out this attack much earlier than planned.

I hope you enjoy the broadcast.

QUESTION ANSWER

Q: Since when do you hate humanity? A: Since middle school.

Q: Do you think there is another way to fix humanity?

A: Absolutely not, humanity is like a truck with no brakes. It is rapidly heading towards collapse.

Q: What motivated you to commit these acts of violence? A: Hatred of people, Misanthropy.

Q: How do you feel about the victims and their families? A: I hope they will be killed soon too.

Q: Do you believe your actions will make a difference in society?

A: Fear. It will be good for them to know that they could be attacked and killed at any moment.

Q: Why did you use violence as a tool? A: Do you have a better alternative?

Q: What kind of society do you want?

A: A dead society.

Q: How did you feel psychologically when you decided to take that kind of action?

A: Happy and excited. It's a relief to know that the torture that has been going on for years is over.

Q: Did your conscience or reason question you on this matter?

A: No.

Q: How do you think the media and social media influence your actions? A: They will probably label me as a terrorist, one will say ISIS, the other PKK. The media is like a sewer, they are all controlled by Jews anyway.

Q: Do you think there is a psychological disorder behind your actions? A: No, these insects are the ones with mental disorders. Who would want to spend their whole life as a slave?

TODAY'S WORLD

From nigger rap to child abuse, everything is among the ideals that are becoming increasingly normalized in today's world. Globalism is the forerunner of this, which is a curse invented by the Jews.

Some things that will become normal in the future:

- Fetish of eating shit and drinking piss
- Child abuse and rape
- Shitty rap songs
- Working on Saturday and Sunday
- Extended business hours
- Abortion
- Communism
- Immigrant murders
- Social credit system
- Government cameras monitoring the inside of your home

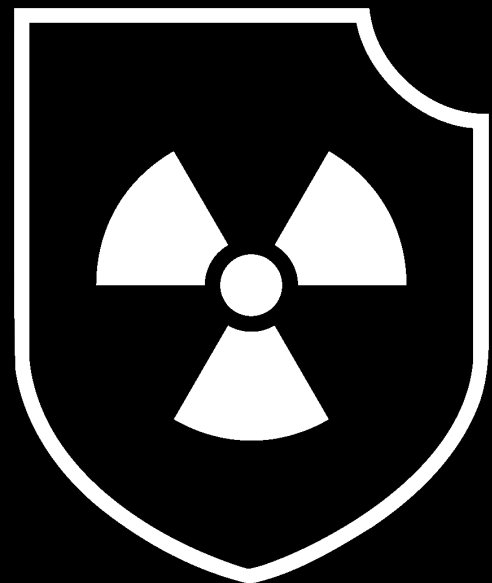

There is a way to stop them.

Nuclear apocalypse.

But until we achieve that, it is up to us to rid the world of insects.

Everyone should be punished for obeying this order, such a system should not have lasted even 3 years. But it has been going on for a long time, all because of obedient insects. After these insects are cleaned out, other Jews and their slaves should be beaten with hammers on a high roof, and then thrown down.

Blacks, Feminists, Leftists, Communists, Kurds and every other degenerate human being should have their eyes gouged out, their legs and arms replaced with prosthetics. Their unnecessary organs should be removed.

should be fed to dogs. They should have their butts batoned at regular intervals and their food should be urinated on.

Everyone is living a fake life right now, seeing the purpose of life as making money. Showing off on social media. Tons of people who are not like themselves just because there is no approval from other people. Their minds, controlled by the media, make this life seem like a circus to them. They don't care about anything.

To the fools who say violence is the solution to something, playing the victim will not work. Whether it is political or racial. Violence can solve almost any problem.

This system will eventually collapse, and when it does, the insects in the city will be frantically thinking about what to do, but they will die without being able to do anything. They will not be able to adapt to a sudden change because they are used to living in the city and eating from outside. My actions and yours will accelerate this collapse and sooner or later the country, and then the world, will be covered by anarchy. Everyone will kill each other to live, they will give everything for a can of food. But they will not be able to go any further than this. We and you will be able to live superior to these insects in this anarchy.

In fact, we can provide this anarchy for a few days by doing a little trolling. You go to the nearest electrical substation and sabotage it, and everyone in the city goes crazy. You can even take it to the next level and cut down electrical transmission towers in any forest. Who's going to see you in the big forest anyway?

Throw nails on the roads at night. Attack the families, cars and homes of politicians, pepper spray their faces, send threatening messages to their families and slash their car tires. Molotov cocktails to party buildings and escape. Attack power lines, disable transformers and leave servants without water and bread. Cut internet cables.

Beat up the judges who release the criminal immigrants and the lawyers who defend them and burn their houses down. Plant IEDs in the immigration registration centers and blow up everyone there. Go to the Village, make your own gun in your garage and target the immigrant houses and then eliminate them all.

Give poisoned water and counterfeit money to Syrian children trying to sell tissues in traffic. Threaten to burn down the factories and buildings of companies that employ immigrants for cheap labor, and if they don't give up, do what they say. If they still haven't figured it out, target their families and children.

Target the degenerate idiots, call in a bomb threat at an LGBT march, pour granulated sugar into the gas tank of feminist activists' cars and stuff a wet towel down their tailpipes.

Make ANFO explosives in your village, put them in a rental car and blow up federal buildings, just like Timothy McVeigh.

Purge your ideological enemies, communists, marxists and anti-fascists.

Mass human death.

TODAY'S SAINTS

Anders Behring Breivik, Brenton Tarrant, Stephen Paddock, Timothy McVeigh and more.

They have all cleared dozens of bugs in this world. I will be on this Saint list, and you too. You just need some money and time, my equipment is either bought from the internet or from places that sell hunting equipment. But if you want to take it to the next level, you can buy illegal weapons from groups that have a few apps. Just don't trust everyone and be careful. But if you don't want to put yourself in danger, you can also clear it by making an explosive.

It would be good if you also bought yourself some nice clothes and equipment, I don't think you want to clean like a looter. Wear the best clothes you can.

I'll be using an axe and a camping knife as my offensive weapons, which I hope will clear out enough bugs.

(My equipment)

You may die for this cause, you may be arrested. You may be beaten in prison. But remember, I and other saints will not forget what you did. If you live broadcast your action, have a friend who will not let it be deleted from the internet. Someone who will record and archive the entire live broadcast. Maybe even edits will be made behind your back, and this will motivate the saints who will come.

Stephan Balliet, no matter how much of a Saint he was, his plan failed. And luckily, he killed 2 people.

Observe the building and area you will attack in advance and get all the information you can. Opening and closing hours of the building, which doors are locked and which are open. Emergency exits and escape routes. Also consider the crowds, attack where and when the most insects are crowded. If there are doors they can escape, block them so they can't escape.

Then don't waste all your ammunition on one door like Balliet did, trying to open one. I trust you.

If you live in Istanbul and have a synagogue near you, you have a great opportunity to go and cleanse the Jews who finance this degeneration.

Be useful instead of being a lazy asshole.

C*RTS

They are scumbags who claim to have an imaginary country called Bokistan. They demand land from Iran, Iraq and Turkey. They speak Indo-Iranian and are of Iranian origin. They like to lick the dicks of the degeneration financier Jews. Because the Jewish dog USA finances them. The crimes committed by these dogs abroad are blamed on the Turks and the reputation of our race is tarnished.

No matter how strong they seem, they cry when they migrate abroad and show that they are discriminated against. Kurds have never invented anything, they have multi-ethnic genes.

Ataturk and Saddam cleared these insects well in their time.

(The best way to talk to a bitch)

Viktor Mirskoy is a Russian wolf cleaner. He killed a 5-year-old wolf boy by strangling him with his bare hands and shot 2 other wolf boys with his gun.

I hope there will be a few k*cks in the TKP building that I will attack. After all, most of these scum are communists.

All of them should be cleaned regardless of children or the elderly. If only I had a gun, I could clean more of these insects. But in life

I was not lucky in this regard because I had no luck. If there were a Kurdish party building like HDP or YSP in my city, I would go and attack them.

Everything with simple available stuff 2:52 PM
I think bombs from fertilizers work great 2:52 PM
It also depends what you bomb, for public places you must use nails 2:53 PM

IDIOTS MUST DIE

Don't let the stupid insects around you live a good life, sabotage their work. Plant false evidence and report them to the police. Vandalize their cars. Are the gypsy children making too much noise? Cut their tongues after cleaning.

They are all slaves to a lousy system, their lives are all a lie. More fame and more show. This continues until they become old men and die. The girls are brainwashed, they have relationships for a week, have sex and then break up... Disgusting. The guys act like artists with their shitty haircuts and shitty behavior. They all end up getting burned in tires. These bugs usually hang out in nightclubs, which is a great building to clean up if you have a gun. Anyway.

I believe this world is going to get worse and worse, and we need to get rid of all the servant bugs for making this happen.

I've spent my entire life hating loud noises, stupid people (especially my father, the son of a bitch). Every day was torture for me. Despite their age, they acted like 4-year-olds, they never behaved properly. It's one of the few reasons I need to clean them. I wish I could clean them too. But that would sabotage my main cleaning plan, so for now they'll live. If I get out of prison, hopefully that will change.

There are a lot of stupid bugs in this world like my family, so like I said. If you can start, start with your first family. Cleanse them all for bringing you into this evil world.

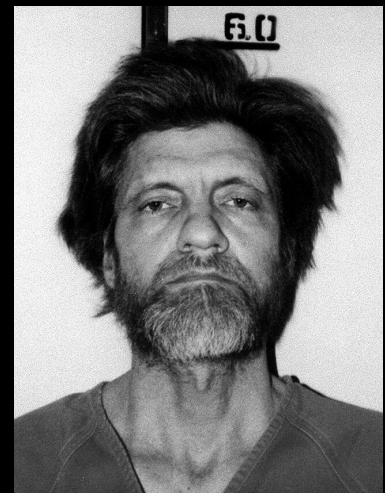

No mercy.

NATURE AND HUMANITY

Nature is a thousand times superior to humanity. There are hunters and prey. I and you who will clean are the hunters. Insects are the prey. Nature continues in a completely perfect cycle compared to humanity. Of course, there are stupid and lazy animals that should have been extinct long ago but are kept alive by humans, like koalas and pandas. If it weren't for insects, these would be stupid animals that would have been extinct long ago. Animals don't want to live a showy or ostentatious life like us. They hunt, mate and protect their children from other predators to continue their species.

But domestic cats and dogs have become like humans by living with them. They have feelings like jealousy. These two species have managed to survive thanks to humans. House cats are stupid and lazy creatures, whose only job is to eat ready-made food, and spend their entire lives in a closed house. I am a little lighter on dogs. Toy dogs and pit bulls should definitely be destroyed. And any creature created by cross-breeding. These animals are unnatural, most of them are either disabled or extremely stupid. Some like German Shepherds can be considered normal.

Street dogs should be shot with 9mm.

FINALLY

I still don't understand how people can enslave themselves to jewish owned companies until they are in their 40s and 50s, they are all idiots. They live life to die in a hospital bed, I will die a heroic death, or I will be arrested. It depends on the police officer involved.

Frankly, I don't really care if I go to prison, I can continue to cause problems and kill people in prison until I get myself transferred to a solitary cell. Especially refugees or pedophiles inside. But if I get bored, I can hang myself, I'll decide that when I go to prison.

All media claiming any terrorist organization behind me are lies, there is neither ISIS nor PKK behind me. Do not fall for the lies of the filthy Jewish media. This is a complete lonewolf attack.

FUCK JOURNALISTS AND ALL MEDIA ORGANIZATIONS, OK?

Save this PDF and the other manifestos and explosives-making PDFs I'll share and save them to a safe disk. They all contain tons of content that will be useful in your attack. Go ahead and remove all the bugs.

Make the strongest pipe bombs, get the longest knife. Make the most effective explosives, and get the strongest weapons.

Make the best plan.
